DATE

classroom code • module • pre-assessment • school email

1. **Open Schoology** and find today's GMetrix/BrainBuffet classroom join code.
2. **Create an account** on the GMetrix/BrainBuffet site using your school email address.
3. **Enter the classroom code** to join the class. Codes are case-sensitive.
4. **Find the ACP Pre-Test** (sometimes labeled "Pre-Assessment") and start it.
5. **Work quietly and independently.** Guessing is expected; this isn't graded on correctness.
6. **Screenshot your results screen** once you submit, and save it to your Screenshots folder.

A low score today is the whole point of a pre-test. Module 1 exists to teach you everything this test just asked about.
